Summary

Aspiring **Generative AI** Engineer with expertise in **LLMs, RAG, Python, FastAPI, LangChain, SQL, REST APIs, Agentic AI** application development. Strong foundation in Data Structures and Algorithms (**DSA**), backend, NLP, machine learning, and data analytics with hands-on experience building scalable AI and analytics solutions.

Skills

Programming & AI: Python (NumPy, pandas, scikit-learn), SQL, Machine Learning, Deep Learning, Generative AI, LLMs, TensorFlow, Prompt Engineering, Agentic AI

Frameworks/Tools: MCP, Django, FastAPI, LangChain, LangGraph, Docker, Git, VS Code, FAISS, REST APIs

Software Engineering: Data Structures & Algorithms, OOP, Test-Driven Development, Scalable System Design, Performance Optimization

Web/Cloud: HTML/CSS/JavaScript, React.js, Node.js, AWS, Microsoft Azure, MongoDB, MySQL, Redis

Experience

Akiyam Solutions Private Limited | AI Engineer Intern

Mar 2026 – Present

- Developing and optimizing **AI/ML pipelines (MCP pipelines)** for **2+** real-world applications using scalable backend and AI
- Performing **data preprocessing, feature engineering, model integration, and API development 20%** to improve system.
- Gaining hands-on experience in **end-to-end AI system development, deploy and 2+ production-ready AI applications.**

Projects

AI Study Assistant (RAG-based GenAI System) | FastAPI, LangChain, FAISS, Gemini API, HTML, CSS, JS Github

- Architected a full-stack **AI Study Assistant** using FastAPI and LLMs (Gemini API), enabling **10+ real-time queries** for personalized academic question answering and intelligent explanations.
- Designed and implemented a **Retrieval-Augmented Generation (RAG)** pipeline using LangChain and FAISS, processing **500+ document embeddings** and improving answer relevance by **40%**.
- Integrated **AI-powered quiz generation and chat history modules**, exposing **3+ RESTful APIs** (/ask, /upload, /quiz) with a responsive frontend interface.

Agentic AI Job Recommendation Platform | Python, FastAPI, LangChain, FAISS, MongoDB, REST APIs Github

- Developed an **AI-powered job hunting platform** using FastAPI, LLMs, and **Agentic AI** to discover, filter, and recommend relevant job opportunities from multiple job portals.
- Implemented a **Retrieval-Augmented Generation (RAG)** pipeline using LangChain and vector embeddings for semantic matching between resumes and **100+ job descriptions**, improving recommendation relevance by **35%**.
- Built a **CrewAI-based multi-agent system** and integrated a **Model Context Protocol (MCP)** server for automated job search, resume matching, application tracking, and intelligent workflow orchestration.

MedDCT-Net: Medical Image Compression using Learned DCT Transforms | PyTorch, OpenCV, Streamlit Github

- Designed and implemented **MedDCT-Net**, a deep learning-based medical image compression framework that learns **DCT-inspired frequency representations** using CNN autoencoders, achieving **PSNR 34.62** and **SSIM 0.9592** on Chest X-ray images.
- Developed a **quantized sparse latent compression pipeline** with orthogonal and frequency-aware loss functions, achieving **2:1 compression ratio** while preserving critical medical image structures and frequency information.
- Built an interactive **Streamlit dashboard** for real-time image compression, JPEG comparison, FFT visualization, DCT similarity analysis, and reconstruction quality evaluation, enabling comprehensive model interpretability and performance analysis.

Education

Indian Institute Of Information Technology Sri City

Oct 2022 – Jun 2026

B.Tech in Computer Science and Engineering

Achievements & Certifications

Oracle Cloud Infrastructure 2025 — AI Foundations & Generative AI

Certificate

- Scored **78%** in Oracle AI/ML certifications covering **6+ OCI AI services**, LLMs, embeddings, RAG, vector DBs, and fine-tuning Generative AI models using OCI AI Labs.

LeetCode — 300+ Problems Solved

Profile

- Solved **300+ coding problems** in Java covering Arrays, HashMaps, Greedy, and DP.

Google Cloud Arcade 2025 Participant

certificate

- Completed hands-on labs and cloud challenges through **Google Cloud Skills Boost** during **Google Cloud Arcade 2025**, gaining practical experience in **GCP services, cloud infrastructure, AI/ML tools, and deployment workflows.**
